THE NINETEEN-HUNDRED SIXTY-SEVEN
CLASS OF THE SCHOOL OF NURSING OF THE
HAHNEMANN MEDICAL COLLEGE AND HOSPITAL
OF PHILADELPHIA, PENNSYLVANIA PRESENTS . . .

THE VIGIL

Here by the grace of God go we.

Through His love we have grown in knowledge, understanding, and maturity. Now the world lies before us.

It is ours to decide whether we will become complacent and satisfied to take what it may offer or will give of ourselves---our understanding, love, energy and intelligence to make this a better world in which to live. We have not come to an end, but to a beginning of a greater endeavor to learn, to serve, and to grow in stature and vision.

Our memories are many and our future can be bright. This yearbook recalls the memories of those experiences and people who have aided in shaping that future.

"The sense of somebody's need is, I believe, the most powerful motive in the world, one that appeals to the largest number of people of every age, race, and kind. It wakes up the whole nature, the powers that learn as well as those that perform; it generates the vigor of interest that submerges selfishness and cowardice; it rouses the inventiveness and ingenuity that slumber so soundly in student's classrooms. For many of us....work that is service taps a great reservoir of power, sets free some of our caged, leased energy."*

Dear Mom and Dad,
Three years have passed since you bade
me farewell the day I entered this school. At
times the months have seemed an eternity, yet
at others they have been far too short. There
have been moments of sadness, frustration, and
hopelessness. At these times you have supported and
encouraged me and your vote of confidence has meant
more than I can express. There have also been
times of elation and happiness. It was then that
you rejoiced with me.
You have not only watched but helped me
grow in knowledge, understanding, and love. I
not always shown my appreciation for your
guidance, but I have been ever cognizant of
love, and now I wish to dedicate this year
to the two most wonderful parents in the
With Love

With our departure from our alma mater, we, the class of 1967, offer our last wills and testaments.

Talk about an excuse for exhibitionism: "Sophie" wills her overstretched "babydolls" to anyone who would like to try to keep them up! "Betty" Brownell leaves her picture of Paul Newman to "Sally" Hunn. Picture! Why not the real thing?! "Ellie" wills her cookbook to the cafeteria chef, but Diane Guenst is one step ahead--- she wills the cafeteria food to CARE. Unfortunately CARE wouldn't want it.

Okay, who has the sticky fingers? "Sue" Anderson wills her bandage scissors and at least one dozen pens, lost while on duty, to any junior who can find them. "Sandy" bequeaths one half of the Fertility Hex Sign to "Peggy" Vitko: Fortunately "Peggy's" in luck since Harriet wills her the other half. Alma leaves her cleaning rags to the housekeepers: I don't know why they'd want them since for three years they've been trying to get us to clean our own rooms. Oh yes, and Donna Potts wills her contact lenses to Mrs. Kistler. Now "Bertie" believes in charity; she wills her lost contacts to anyone who can find them.

We all know how gruesome those trips to home can be so "Suzi" Smith leaves her seat on the Greyhound to Jane Bixler---Happy Motoring! Kind hearted Elsie leaves her ability to procrastinate and yet succeed to "Sue" Fischer. Do you really need it, "Sue"?

What's that I hear wafting down the hall? Of course: Donna Kellum wills her records to anyone with a record player loud enough to play them. "Ricky" leaves her size three dresses to whomever can fit into them. Anyone for some shrinking potion? Tired Charlotte leaves her long uniforms to anyone who has needle, thread and ambition. As a result of the greatest scare in med-

ical history, Linda Queen wills her SPINALHEADACHE to N.D.

What about Maxine's leaving to "Mimi" Dougherty all her unusual phone calls since "Mimi" loves to hear the person talk? Those of you with short hair! Sue Zemble is willing her blue roller cap to anyone who uses eight or fewer rollers. For some reason Judy wills one glass of orange juice to the cafeteria staff: Would anyone know why? And for those dear plants Shirley leaves to "Henny" Prescott the job of watering the jungle in the second floor kitchen. "Betty" McCarson bequeaths her "air conditioned" bathrobe to Linda Boyer. Wow, raw sex!! Remember the funeral on third floor? As a result Diane Smick wills the body of one Percy P. Plant to the Medical College cadaver lab.

"Mimi" Craig leaves her spontaneous sarcasm to Rita Francis, and by the same "good" token, Lorraine Shotz leaves her motivation and attitudes to Miss Seymour. Like who needs them?

Hurray for Jeanne! She wills to every student every other weekend off: wishful thinking! "Dottie" Scatarige bequeaths all her empty bottles to Mrs. Horner. Couldn't she at least fill them with cold tea? Eileen Johnston wills her cartoon folder to the Vital Sign. "Connie" wills a private phone to long-winded "Betsy" Oswald. Hear ye! Hear ye! Barbara Hersch bequeaths a list of blind dates to the entire student body. And of course "Peggy" leaves nothing to anyone---she's taking it with her! Cheryl wills her nickname "Boog" to Joanne Fryberger. Gail leaves her "early" hours to "Jinx" Hackett---she could use them! Mary Louise leaves to the forthcoming Senior Class President greatly needed nerves of steel. Diane Foruga leaves just to leave.

SOCIAL

VIGIL

The school year of 1966-67 brought activities in addition to our well established organizations.

Thanksgiving and Christmas baskets were filled to abundance by the student nurses and given to needy families. There was a Christmas party for the children of Callowhill Child Shelter, and a "mixer" with "The Gents" providing the music, but perhaps the most memorable was the Nursing Service vs. Student Nurses basketball game. Organized and supported by Nursing Service, it provided a fun-filled evening, funds for the yearbook, and a victory for the Student Nurses.
